

Flooding Solutions Advisory Group

Work Health Safety & The Environment Policy

At Flooding Solutions Advisory Group, a commitment to work, health, safety and the environment is part of the business

This is achieved through:

1. Complying with statutory requirements, codes standards and guidelines;
2. Setting up objectives and targets with the aim of eliminating work related incidents in relation to our activities, products and services;
3. Defining roles and responsibility for work, health, safety and the environment.

Strategies will Include:

- Ensuring roles and responsibilities for work, health, safety and the environment management principles are included in all organisational planning activities.
- Providing ongoing education and training to all our employees.
- Consulting with employees and other parties to improve decision making on work, health, safety and the environment matters.
- Ensuring incidents are investigated and lessons are learnt within the organisation.
- Distributing work, health, and the environment information, including this policy, to all employees and interested parties.
- Providing enough resources to ensure work, health, safety and the environment is a central part of the organisation and ensuring effective injury management and injury management and rehabilitation is provided to all employees.
- Minimising our environmental footprint by working with staff and contractors through pollution prevention practices in compliance with legal and other requirements.

Flooding Solutions Advisory Group maintain relevant and continually improved policies, procedures, system information training, recognition programmes and organisational structures to support and communicate effective health, safety and the environment practices.
